#### 4 OPENING PLENARY

5 1. CALL TO ORDER AND OPENING REMARKS: The meeting was called to order at  
6 10:25 AM local time on 13 May 2002 by TSG-C Chair, Jean Alphonse (Lucent).

7 The Chair stated that the primary objective for this week was to make substantial progress on  
8 the resolution of all SDO comments for publication of cdma2000 Release C and to complete  
9 the cdma2000 Release A point release with the Sync Channel resolution.

10 2. ATTENDANCE REGISTRATION AND ROLL CALL: A roll call of companies indicated  
11 that 25 companies included on the list of 36 active members were present and thus quorum was  
12 established (69% participation).

13 The Secretary noted that the following proxies had been received:

COMPANY	PROXY ASSIGNEE

14

15 3. INTRODUCTION AND NUMBERING OF CONTRIBUTIONS: Contributions were  
16 loaded onto the 3GPP2 network server and listed in the document register (C00-20020513-  
17 000R1).

18 4. AGENDA APPROVAL: The proposed agenda (C00-20020513-001R1) was presented.

21 assigned to agenda items as noted on the agenda.

22 6. APPROVAL OF PREVIOUS MEETING SUMMARY: The meeting summary of the  
23 April 2002 meeting in Alexandria, VA (C00-20020513-002) was presented. **DECISION:**  
24 **This meeting summary was approved without objection as submitted.**

25 E-mail correspondence dated 9 May 2002 regarding a request for TSG-C meeting report  
26 amendment (C00-20020513-035) was presented from the 3GPP2 Secretariat. This  
27 correspondence recommended a modification to the direction given by the TSG-C Chair at the  
28 Alexandria meeting, after consultation with the 3GPP2 Secretariat, regarding the TSG required  
29 actions to an SC remand.

1       **DECISION: The revised statement of TSG options to SC remands should be as**  
2       **indicated below:**

3       **Since the SC Chair is responsible for the overall management of the coordination work**  
4       **within 3GPP2, remanded actions from the SC cannot be ignored. These remands must,**  
5       **however, be managed within the context of the other items on the TSGs workplan,**  
6       **since a TSG has overall authority over its technical work. In cases of conflict, the SC**  
7       **can be requested to reconsider its remand. Responses to the Steering Committee**  
8       **include, but are not limited to:**

- 9       •       **The TSG will comply.**
- 10      •       **The TSG cannot comply with the letter of the remand based on other**  
11           **responsibilities but will comply to our best ability.**
- 12      •       **The TSG cannot comply with the remand at all based on other responsibilities.**

13      **This definition of TSG options regarding SC remands will be used by the TSG for all**  
14      **future activities.**

16 **Consistency (C00-20020513-108)**
- 17 • **Update of Roadmap for CDMA-MC (C00-20020513-109)**

18 **ACTION: The Chair will allow for scheduling of a WG3 meeting immediately**  
19 **preceding the 28 May 2002 interim Plenary conference call.**

20 **ACTION: The Chair will send e-mail correspondence to the other SDOs with copy to**

22 **Conveyance that needs to be sent for those SDOs that will not have their**  
23 **specifications transposed in time to meet the ITU date.**

- 24 • **WG4 REPORT: The WG4 report (C00-20020513-104) was presented by SWG4.2 Chair,**  
25 **Kurt Bantle (Spirent Communications), as FYI.**
  - 26 • Proposed ballot text for C.S0010-B and C.S0011-B (cdma2000 performance specs)  
27 will be ready for approval as baseline text by the June 2002 meeting.
  - 28 • Work has begun on C.S0031-A Signaling Conformance Specification and baseline text  
29 is expected to be ready by the December 2002 meeting.

30 No actions required from Plenary.

31 11. NEW BUSINESS (continued):

- 32 • E-mail correspondence dated 14 May 2002 regarding the approval of C.S0001-B  
33 through C.S0006-B (C00-20020513-110) was presented from the 3GPP2  
34 Secretariat. This contribution was noted as FYI for the TSG.
- 35 • Correspondence dated 15 May 2002 regarding Inter-PDSN Handoff Support  
36 (C00-20020513-118) was presented from TSG-P. This contribution was noted as  
37 FYI for the TSG.

- 1           •       Correspondence dated 15 May 2002 recommending that the HSG ballot be rescinded  
2                   (C00-20020513-119) was presented from TSG-P. There were no objections to this  
3                   action. **ACTION: This contribution was remanded to TR45.5 for review and**  
4                   **action as appropriate.**
- 5           •       A contribution on handling cdma2000 Release C ballot comments (C00-20020513-  
6                   018R1) was presented by QUALCOMM. This contribution proposed both TSG-C  
7                   and TR45.5 action items for resolving Release C ballot comments including the creation  
8                   of a point release 2 (i.e., TR45.5 Release C Addendum 1) whose sole purpose is to  
9                   handle ballot comments that cannot be addressed in the current process. This  
10                  contribution had been previously discussed in the TR45.5 opening Plenary.
- 11          •       A plan for Release C SDO review and comment resolution (C00-20020513-106) was  
12                  presented by Samsung. This contribution proposed a face-to-face meeting before the  
13                  interim Plenary as the best way to move forward in the ballot resolution process. This  
14                  contribution also proposed a new point release if all ballot comments cannot be handled  
15                  via normal ballot resolution processing by the 28 May 2002 date. It also proposes that  
16                  those comments that are not resolved and not withdrawn by the 28 May 2002 should  
17                  be considered at the Plenary level for final disposition.
- 18          •       A plan for Release C completion (C00-20020513-123) was presented by Motorola.  
19                  This contribution proposes a schedule for the next point release if a point release is  
20                  deemed to be necessary by the TSG.
- 21          •       In response to a question from Ericsson regarding which of Lucent's ballot comments  
22                  should be considered as the basis for their votes to disapprove the respective volumes  
23                  of the cdma2000 Release C specification, Lucent (Eshwar Pittampalli) indicated that all  
24                  of their ballot comments should be considered as that basis. Ericsson noted that this  
25                  statement meant that editorial comments were also being used as the basis for the vote  
26                  to disapprove the specification. With reference to their contribution on this subject  
27                  (C00-20020513-014), Lucent again offered to withdraw all of their ballot comments on  
28                  Release C to affect a timely release if a new point release is scheduled to handle such  
29                  withdrawn ballot comments and backward compatibility is not used to deny  
30                  consideration of such comments.
- 31          •       Ericsson requested that the Chair instruct all WG Chairs to request all companies  
32                  submitted NO votes on the TIA ballots to specify which of their comments are the basis  
33                  for their NO votes. **ACTION: The Chair instructed the WG Chairs to comply**  
34                  **with this request.**
- 35          •       **DECISION: After substantial discussion regarding the possibility of**  
36                  **face-to-face meetings next week, WG3 agreed to hold extended conference**  
37                  **calls that started earlier in the day and to attempt to prioritize the issues that**  
38                  **would impact on backward compatibility. The extended conference calls were**  
39                  **in lieu of face-to-face meetings next week. There was at least one (1) objection**  
40                  **from LGE to starting meeting before 7:00 AM Asian time but the Chair left the**  
41                  **conference call logistics to the discretion of the WG Chair.**

1           •       Samsung made the motion that “TSG-C Plenary adopt C00-20020513-106R4 as its  
2 plan for resolving cdma2000 Release C ballot comments”. The motion was seconded  
3 by Nokia. Both Lucent and QUALCOMM objected based on the included schedule  
4 for the addendum and the concerns regarding the ambiguity associated with the  
5 sentence “In principle, backward compatibility should be maintained in the point  
6 release.” in that contribution. A roll call vote was requested. The results of the vote  
7 was as summarized below:

- |    |                 |    |
|----|-----------------|----|
| 8  | •       YES     | 11 |
| 9  | •       NO      | 0  |
| 10 | •       ABSTAIN | 18 |

11           Based on the fact that, from previous roll calls, 37 votes were available and the vote  
12 failed to produce greater than 50% of the available votes as for or against, the vote was  
13 deemed invalid. MOTION-0205-01.

- 14           •       AllTel requested a quorum call. The results indicated that 23 companies on the active  
15 roster of 36 companies were noted as present (64%). Thus, quorum was present.
- 16           •       Based on the fact that there were no NO votes on the previous motion, Ericsson  
17 repeated the same motion that Samsung had made previously: “TSG-C Plenary adopt  
18 C00-20020513-106R4 as its plan for resolving cdma2000 Release C ballot  
19 comments.” This motion was seconded by Samsung. Lucent objected to the motion.  
20 Based on Lucent’s objection to the motion, Ericsson withdrew this motion in the interest  
21 of time.

22           •       **ACTION: The Chair directed that the following contributions were carried**  
23 **forward to the 28 May 2002 interim Plenary meeting:**

- 24           •       **cdma2000 Release C ballot comments (C00-20020513-018R1) as**  
25 **presented by QUALCOMM**
- 26           •       **A plan for Release C SDO review and comment resolution (C00-**  
27 **20020513106) presented by Samsung**
- 28           •       **A plan for Release C completion (C00-20020513-123) presented by**  
29 **Motorola**
- 30           •       A contribution on MMD/IMS Harmonization (C00-20020513-121) was presented by  
31 QUALCOMM. This contribution was noted as FYI for the TSG.
- 32           •       A contribution on 3GPP/3GPP2 IMS Differences (C00-20020513-120) was noted as  
33 FYI for the TSG.
- 34           •       The Chair directed that all cdma2000 Release A volumes be carried forward to the  
35 June 2002 meeting, including the following:
  - 36           •       cdma2000 Introduction Release A v6.01 (C00-20020513-053)
  - 37           •       cdma2000 Physical Layer Release A v6.01 (C00-20020513-052)

- 3                   •       cdma2000 Analog Release A v6.01 (C00-20020513-057)
- 4 12.    ASSIGNMENTS: Action items other than contribution remands and distribution of output
- 5        documents included the following:
- 6        •       **ACTION: The Chair has been requested to schedule WG1 meeting time**
- 7        •       **immediately preceding the opening Plenary in Shenzhen to consider adoption of**
- 8        •       **baseline text for C.P0016-B OTASP.**
- 9        •       **ACTION: The Chair will allow for scheduling of a WG3 meeting immediately**

- 11       •       **ACTION: The Chair will send e-mail correspondence to the other SDOs with**
- 12       •       **copy to the 3GPP2 SC Chair advising them of the requirement for them to**
