11 A.

12 2. ATTENDANCE REGISTRATION AND ROLL CALL: A roll call of companies

16 3. INTRODUCTION AND NUMBERING OF CONTRIBUTIONS: Contributions were
17 loaded onto the 3GPP2 network server and listed in the document register (C00-
18 20031013-000).

19 4. AGENDA APPROVAL: The proposed agenda (C00-20031013-001R1) was presented.
20 **DECISION: The agenda was approved without objection as modified by the**
21 **discussion (C00-20031013-001R2).**

22 5. ASSIGNMENTS OF CONTRIBUTIONS TO AGENDA ITEMS: Contributions were
23 assigned to agenda items as noted on the agenda.

27 **the discussion (C0020031013-002R1).**

28 7. REVIEW OF OUTSTANDING ACTIONS FROM PREVIOUS MEETING: The action
29 items from the previous meeting were noted as follows:

- 30 • The ALLTEL motion to adopt the recommendations in their contribution on DV
31 status (C00-20030915-125) was tabled until the next meeting. This contribution
32 was held open at the Plenary level pending action.

1 ALLTEL and LG Telecom agreed to withdraw this motion based on the following
2 statement: "ALLTEL and LG Telecom officially withdraw the tabled TSG-C
3 motion and associated contribution (i.e., C00-20030915-125_DV_Status) put
4 forward during the September closing plenary. Several deadlines have been set
5 by TSG-C (i.e., the July, August, & September meeting cycles) relative to
6 completing IS-2000 Release D enhanced RL development and subsequently each
7 were missed. Recently, several companies acknowledged their support for the
8 completion of all Release D decisions by the September 30 conference call via the
9 e-mail exploder. We also concur and request that TSG-C recognize that the new
10 revised deadline of September 30th is too important to miss. We applaud the
11 efforts by the TSG-C membership to advance the work and encourage TSG-C to
12 move ALL work forward for both IS-2000 Release D and HRPD Release A
13 understanding that each is in a different stage of development. The goal of
14 TSG-C should be to expeditiously complete both specifications while exercising
15 due diligence to ensure a quality standard is produced."

16 **DECISION: This open action was closed without objection.**

- 17 • The contribution on a characteristic of any process which claims to be the result
18 of an all-TSG consensus from Samsung (C00-20030915-127R1) was carried over
19 from the last meeting. This contribution was noted as FYI for the TSG.

20 **DECISION: This open action was closed without objection.**

- 21 • The contribution proposing a new (and separate) Band Class Standard for
22 cdma2000® (C00-20030915-011) was remanded to all WGs for review and
23 comment by the closing Plenary. WG1, WG2, and WG4 all indicated either
24 support for the proposal or no opposition. Comment from WG3 is still
25 outstanding. This action is still open.
- 26 • WG2 and WG3 were requested to consider whether or not a face-to-face meeting
27 in November 2003 will be required. WG2 determined that they do not have a
28 need to meet in November 2003. Response from WG3 is still outstanding. This
29 action is still open.
- 30 • The membership of TSG-C was advised to make their positions known regarding
31 S.P0070-0 via their company participation in the upcoming conference call.
32 **DECISION: This open action was closed without objection.**
- 33 • The WG1 Chair and the Secretary took the action to figure out how to process the
34 Request to Register MPEG-4 code points through 3GPP2. This action is still
35 open.

36 8. CORRESPONDENCE: None.

37 9. LIAISON REPORTS:

- 38 • OP MEETING: No contributions.

- 1 • SC: The following contributions were discussed:
- 2 • E-mail correspondence dated 1 October 2003 regarding 3GPP2
- 3 correspondence to ITU-T SG16 Q.10 (C00-20031013-009) was presented
- 4 from the SC Chair. This correspondence confirmed the transmission of
- 5 the correspondence generated by the TSG at the last meeting. This
- 6 contribution was noted as FYI for the TSG.
- 7 • The summary of the SC meeting that was held on 30 September 2003 via
- 8 conference call (C00-20031013-010) was presented from the 3GPP2
- 9 Secretariat. This report was marked to note updates since it's initial
- 10 distribution. The report noted the following decisions:
- 11 • The Steering Committee approves the creation of a single body
- 12 "delegate" to coordinate all inbound and outbound
- 13 communications with the OMA.
- 14 • The Steering Committee approves a single person to serve as SC
- 15 delegate or OMA liaison. The Steering Committee approves the
- 16 appointment of Mr. Richard Robinson (Sprint PCS) as primary
- 17 OMA liaison and Ihab Giurguis (Sprint PCS) and Clif Barber
- 18 (KDDI) as back-ups. The Steering Committee further recommends
- 19 the establishment of an OMA liaison e-mail reflector to be
- 20 populated by the primary liaison and both alternates, and instructs
- 21 the OMA liaison to copy the SC reflector on all correspondence
- 22 until further notice, and to provide a monthly written liaison report
- 23 to the Steering Committee.
- 24 • The Steering Committee approves the content of contribution
- 25 SC-20030930-004r1 for forwarding to the OMA following 24-hour
- 26 review by the Steering Committee participants. The Secretary
- 27 noted that this correspondence was the TSG-S OMA AdHoc to
- 28 OMA related to PoC.

29 The Secretary also noted the following actions subsequent to the release of

30 this report:

- 31 • The Secretariat has established an e-mail address for the SC
- 32 Delegate that coordinates communications with OMA at
- 33 omaliaison@3gpp2.org.
- 34 • KDDI has suggested that the identification of the decisions and
- 35 actions be changed from 2003/10-xx to 2003/09-xx to allow
- 36 differentiation between decisions and actions from the 30
- 37 September 2003 conference call and those that will be made at the
- 38 face-to-face meeting in Kobe this month.

39 This contribution was noted as FYI for the TSG.

- 1 • 3GPP2 SECRETARIAT: Correspondence dated 10 October 2003 regarding use
2 of the term cdma2000 in 3GPP2 documents (C00-20031013-012) was presented
3 by the 3GPP2 Secretariat. This contribution included the cdma2000 trademark
4 usage requirements that have been approved by the 3GPP2 OPs. These
5 requirements will be effective for contributions as of the next meeting and for the
6 next versions of all published specifications. The Secretariat staff will update all
7 previously published documents and forward the updated source to the source
8 TSG for use by the Editor on future point releases and versions. **ACTION: This
9 contribution was remanded to all WGs for review and action as appropriate.**
- 10 • TSG-A: Correspondence dated 15 September 2003 to TSG-C and TSG-X
11 regarding Review of TSG-A updates to the S.P0076 Protocol Alignment
12 Reference Document (C00-20031013-003) was presented from TSG-A. In this
13 correspondence, TSG-A has proposed to the following items:
- 14 • IOS v4.3 specific updates,
15 • addition of IS-2000-C , IS-2000-D1, IS-835-B and IS-835-C
16 considerations and
17 • basic cleanup of older IOS impact items.
- 18 TSG-A has requested feedback by the TSG-A meetings in Maui in December
19 2003. **ACTION: This contribution was remanded to WG1 and WG2 for
20 review and comment with comments to be coordinated by WG2 by opening
21 TSG-C Plenary of the December 2003 meeting.**

25 This correspondence proposed a new work item for PoC and requested
26 comments by the TSG-S opening Plenary in January 2004. **ACTION:
27 This contribution was remanded to WG1, WG2, and WG3 for review
28 and comment with all comments being coordinated by WG1 by
29 closing Plenary of the December 2003 meeting.**
- 30 • Correspondence dated 30 September 2003 to all TSGs regarding Updated
31 Announcement for Publication Process Review of Training Material
32 Session and Training Session (C00-20031013-008) was presented from

14 Work Item Review by TSG-X (C00-20031013-006) was presented from
15 TSG-X. **ACTION: This contribution was remanded to WG1 as FYI.**
- 16 • TR45: No contributions.
- 17 • ITU: No contributions.
- 18 • Other: No contributions.
- 19 10. WORKING GROUP REPORTS:
- 20 • WG1 Chair, Phil Brown (Ericsson), proposed that C.P0022-A v0.5 Location
21 Services(C00-20031013-014) be accepted by the TSG as baseline text.
22 **DECISION: C.P0022-A v0.5 Location Services was approved without**
23 **objection as baseline text.**
- 24 **ACTION: This contribution was remanded to WG1 for V&V.**
- 25 • WG2 Chair, Orlett Pearson (Lucent), noted the following status of their activities
26 as indicated in the WG2 Interim Report (C00-20031013-013):
- 27 • SWG2.1 spent substantial time discussing technical issues that were either
28 remanded from WG3 to SWG2.1 or were identified during the
29 development of new features (mainly the R-PDCH) for C.S0003-D.
30 Additionally, several issues related to enhancements to the F-PDCH were
31 discussed as well as support for broadcast/multicast services in the MAC
32 layer.
- 33 • SWG2.2 met in the interim and held joint conference calls with SWG2.3
34 to address Release D related issues and SWG1.4 to discuss item to address
35 the issue with MEID.
- 36 • SWG2.3 also had numerous conference calls to address BCMCS, Non-DV
37 and DV related contributions and closed approximately 20 contributions.
38 SWG2.3 held joint conference calls with SWG2.1 and SWG2.2 to address
39 contributions on DV and non-DV items.

- 1 • SWG2.5 also met during the interim to discuss HRPD bandclasses and
2 plan activities related TIA ballot resolution for C.S0054-0 (TIA/IS-1006).
- 3 • WG3 Chair, Ed Tiedemann (QUALCOMM), noted the following status of the
4 WG3 activities:
- 5 • Held six (6) long calls for cdma2000 Rev. D and three (3) shorter calls for
6 HRPD Rev. A.
- 7 • The decision making objectives were met in a timely manner. However,
8 some technical issues still remain open.
- 9 • Agreed on all standardized configurations for BCMCS.
- 10 • Decided to put the F-RCCH (rate control channel) on top of the F-CPCCH
11 (common power control channel).
- 12 • cdma2000 Rev. D work will continue in an attempt to wrap up baseline
13 text by the closing Plenary. AdHoc joint meetings with SWG2.1 will
14 probably be required. HRPD Rev. A work will continue in parallel in a
15 separate room but no HRPD decisions will be made unless the entire WG
16 gets together.
- 17 • Lucent suggested that the WG3 conference call schedule (sometimes until
18 3:00 AM) has become problematic. They noted that meetings should not
19 go past midnight US east coast time, that the conference call schedule be
20 balanced to “share the pain” between US and Asian participants, and that
21 discussions may need to be terminated early to meet required deadlines.
- 22 • WG4 Vice Chair, Dave Whipple (Agilent), noted that WG4 continues to progress
23 its work this week.
- 24 • The Chair indicated his plan to have an interim Plenary on 5 November 2003 at
25 8:00 US east coast time only to approve cdma2000 Rev. D SDO review text. This
26 allows just over two (2) weeks for V&V and targets TIA ballot resolution for the
27 December 2003 meeting in Maui.
- 28 11. OLD BUSINESS: A contribution on the 3GPP2 TSG-C Introduction of cdma2000
29 Rev. D for TSG-A (C00-20031013-011R2) was presented by Nokia. Based on the
30 discussion, the Editor was directed to focus this contribution on cdma2000 Rev. D
31 performance and to eliminate any performance comparisons with HRPD.
- 32 • **ACTION: This contribution was remanded to WG1, WG2, and WG3 for
33 review and action as appropriate with comments to be coordinated by Tom
34 Derryberry (Nokia).**
- 35 • The group agreed that the actual official TSG-C presentation to TSG-A should be
36 delayed until the Maui meeting since the WGs do not have time during this
37 meeting cycle to review the document. However, the discussion noted that Nokia
38 was free to make a company contribution to TSG-A.

1 12. ITU PROCESS/APPROVAL: No contributions.

2 13. NEW BUSINESS: No contributions.

3 This session was recessed on 13 October 2003 at 11:00 AM local time.

4

5 **CLOSING PLENARY**

6 The meeting was reconvened on 17 October 2003 at 9:10 AM local time.

7 Quorum was established at the opening Plenary and not challenged at this time. No additional
8 3GPP2 individual member companies were noted in attendance but CDG was present as an
9 observer.

10 14. WORKING GROUP REPORTS:

8 **changes still to be incorporated in the cdma2000 signaling text via e-mail exploder**
9 **during the week of 20 October 2003.**

10 ALLTEL expressed its gratitude to WG2 for their efforts related to production of the
11 baseline text of cdma2000 signaling text.

12 Sprint expressed a concern that the WG2 SWGs have not published an interim
13 conference call schedule. However, the WG2 Chair noted that WG2 SWGs would
14 publish conference call schedules in the very near future after they have had a chance to

22 **was directed to post an initial draft on the TSG-C e-mail exploder during the week**
23 **of 20 October 2003.**

- 24 • **WG3 REPORT: The WG3 report (C00-20031013-103) was presented by the WG3**
25 **Chair, Ed Tiedemann (QUALCOMM) , as FYI.**
 - 26 • **WG3 had originally planned that HRPD WG3 activities would be able to work in**
27 **parallel with editing at this meeting. However, WG3 entered the meeting with**
28 **more technical issues than anticipated and more technical issues cropped up, so**
29 **that HRPD Rev A received less time than anticipated.**
 - 30 • **Completed the development of baseline text for C.S0002-D. The WG noted that**
31 **there is one issue that did not receive full resolution, an issue that was first raised**
32 **to the attention of the Working Group last week. This issue is related to the**
33 **operational rules for the F-RCCH operating in Dedicated Rate Control (DRC)**
34 **mode when there are multiple handoff legs.**
 - 35 • **WG3 agreed to request a new project number for a document called “ Band Class**
36 **Specification for cdma2000 Spread Spectrum Systems” from Plenary.**

5 **Spread Spectrum Systems (C00-20031013-129) was approved without objection as**
6 **baseline text and remanded back to WG3 for V&V.**

7 **ACTION: The WG3 Chair committed to provide a punch list of the technical**
8 **changes still to be incorporated in the cdma2000 Physical Layer via e-mail exploder**
9 **during the week of 20 October 2003.**

- 10 • WG4 REPORT: The WG4 report (C00-20031013-104) was presented by WG4 Vice
11 Chair, Dave Whipple (Agilent), as FYI.

13 resolved for the Interim Plenary.

14 • C.P0043 and C.P0044 will be ready at the Interim Plenary.

15 The OTA Interoperability Specification Work Item Request (C00-20031013-106) was

17 No other actions requested from Plenary.

- 18 • The Chair noted his intent to schedule two (2) interim Plenary conference calls as
19 follows:

20 • 5 November 2003 at 8:00 AM US east coast time. This call will be focused on
21 the following:

22 • WG1 and WG4 documents requiring Plenary attention.

23 • S.P0057-0 Band Class specification for SDO review and comment.

24 • Any of the cdma2000 Rev. D documents that are ready for SDO approval
25 by that date.

26 • 10 November 2003 at 6:00 PM US east coast time. This call will be focused on
27 approval of SDO review text for the cdma2000 text.

28 Both ALLTEL and Sprint objected to the scheduling of the second Plenary and stated the
29 following reasons:

30 • They do not believe that the additional days for V&V add much value.

31 • They believe that, since ballot comments from a 10 November 2003 SDO release
32 date would not be available until Wednesday in the Maui meeting week
33 (10 December 2003), the face-to-face meeting time in Maui that would be
34 sacrificed does have value.

1 A compromise was proposed by Motorola to have the interim Plenary on 7 November
2 2003 with TIA ballot responses expected on 8 December 2003 (day of opening Plenary in
3 Maui). This compromise was originally not accepted. **DECISION: However, after
4 some additional deliberation, the TSG agreed that only one (1) interim Plenary will
5 be held to cover all required Plenary actions. That Plenary will be held on
6 7 November 2003 at 9:00 AM US central time.**

7 **ACTION: All WG Chairs were directed to provide the list of documents to be
8 considered at the 7 November 2003 interim Plenary to the TSG-C Chair by COB on
9 Monday 20 October 2003.**
